#### **BIRD IN HAND GOLD PROJECT & ANGAS PROCESSING PLANT**

#### 100% owned by Terramin and its subsidiary Terramin Exploration Pty Ltd

The Bird in Hand Gold Project (BIHGP) is located approximately 30km north of Terramin's existing mining and processing facilities at the Angas Zinc Mine (Angas). The project has a high grade Resource of 650,000 tonnes at 12.6g/t for 265,000 ounces of gold. A feasibility study showed that the BIHGP expected to generate a post-tax NPV<sub>8</sub> of \$141 million with an IRR of 80.5% over approximately 4 years of production. The project's base case projection is to produce an average of 44,700 ounces of gold per annum at a low C1 cash cost of \$737 per ounce and an all in sustaining cost of \$959 per ounce. It is anticipated that, subject to required regulatory approvals, the Bird in Hand ore will be processed utilising the facilities at Angas which can be modified to process gold-bearing material. The existing tailings dam at Angas has the capacity to hold Bird in Hand tailings.

Terramin has continued to progress its MLA for its BIHGP and the Miscellaneous Purpose Lease (MPL) to allow the Angas site to treat the Bird in Hand ore. Terramin has continued to respond to information requests by the South Australian Department for Energy and Mining (DEM) in respect of these applications and is awaiting final approval of these applications.

The Program for Environment Protection and Rehabilitation (PEPR) has been largely finalised and is ready for submission.

Terramin continues to engage with a number of parties which are interested in funding or investing in the project and is in receipt of a number of funding offers. There is strong interest from offtake parties, streaming and royalty companies, financial institutions and other mining companies.

The Angas site continued to be maintained in accordance with the DEM approved Mine Care and Maintenance Plan and is operating in compliance with its lease conditions.

Expenditure on the BIHGP and Angas Zinc Mine (AZM) site was \$0.4 million (noting that this number includes care and maintenance costs at AZM).

Terramin holds a 65% shareholding in WMZ. The remaining 35% is held by two Algerian government-owned companies: Enterprise Nationale des Produits Miniers Non-Ferreux et des Substances Utiles Spa (ENOF) (32.5%) and Office National de Recherche Géologique et Minière (ORGM) (2.5%).

During the quarter, Terramin has been focused on its ongoing negotiations with its joint venture partner, ENOF, regarding the structure and management of Tala Hamza Zinc Project joint venture as it transitions to construction and production.

Terramin understands that the Algerian mining regulator (ANAM) is prepared to promptly provide the requisite project approvals once the joint venture arrangements have been finalised.

Consultation with the local community is ongoing.

Expenditure on the Tala Hamza project during the quarter was \$0.1 million.

The project has a resource of 47.4 million tonnes at 0.25% copper containing 119,000 tonnes of copper. The project is been partially funded by a government grant of \$2.85 million from the Co-operative Research Centre.

Terramin's joint venture partner Environmental Copper Recovery Pty Ltd (ECR) has been working on advancing government approvals and obtaining appropriate land access for it to commence the on-site testing of the in situ recovery. This approval work is almost complete and on-site work is expected to start in the coming weeks.
