

APPENDIX C9

COMMUNITY DROP IN DAYS REPORT
28.29 APRIL 2019

BIRD IN HAND GOLD PROJECT

MINING LEASE PROPOSAL MC 4473

ABN | 66 122 765 708
Unit 7 / 202-208 Glen Osmond Road | Fullarton SA 5063

Terramin - Community Drop In Days

28.29 April 2019

1 Background

Terramin are committed to continuous improvement and engagement with the community, the community drop-in day, is part of the Terramin Community Engagement Strategy for the Bird in Hand Gold Project.

Previous community drop-in-days were hosted;

- 22 September 2016
- 28 and 29 May, 2017
- 25 September 2017.

Each was held at the Woodside Town Hall and were intended to present progression and design-planning of the project in the (yet to be lodged) Mine Lease Proposal (MLA).

The drop in day was marketed and promoted in the

(Adelaide) Weekend Herald

Mt Barker Courier

Terramin Community Newsletter Edition – April 2019

Letterbox drop to postcode 5244 (Woodside)

Signage on community noticeboards

The attendance profile was lower than numbers than previously held community meetings. Terramin did approach other venues, closer to the main retail hub (adjacent to the Post Office, Supermarket or Newsagency, but were unable to secure another public space. The Woodside Town Hall is at the gateway to the Woodside retail strip.

2 Visitation

A record was kept of all the

Staff also maintained records of the themes of conversations they had, these issues and responses are summarised in Section 4.

Opening: 3 – 8pm
Total Number Visitors: 13 Adults (8 Male; 5 Female)
Average Length of Stay: 15-20min

Attendance:

Pre 3pm	3-4pm	4-5pm	5-6pm	6-7pm	7-8pm
4 (1M ; 3F)	3 (2M ; 1F)	NIL #	2 (1M ; 1F)	3M	1M

A representative of the regulator (DEM) attended

2.3 Summary

- Total participation over the two days = 20 people
- There were 3 staff /consultants available for discussion each day

Those that attended were primarily interested in;

- Employment – particularly when jobs would be advertised, and operations would commence
- Fact checking and further investigation about the proposed mine design and operations, particularly management of water

All attendees were aware of the Bird in Hand Gold Project prior to the visit at the open day.

Attendees were also asked to comment on the treatment of the ROM Silo, which is the most prominent visual element on the site. The feedback received preferred the darker grey as recommended by Oxigen.

3 Community Feedback - Engagement

At the community drop in day, Terramin represented a series of 23 posters, each represented details of the Mining Lease Proposal;

- | | |
|----|-------------------------------|
| 1 | Project Progression |
| 2 | About Terramin |
| 3 | History of Woodside Mining |
| 4 | Bird in Hand Heritage |
| 5 | Site Plan |
| 6 | Typical Infrastructure |
| 7 | Visual Amenity (1) |
| 8 | Visual Amenity (2) |
| 8a | ROM Silo treatment |
| 9 | Underground Workings |
| 10 | Mining Method |
| 11 | Drilling & Blasting |
| 12 | Dust |
| 13 | Noise & Vibration |
| 14 | Access & transport |
| 15 | Strathalbyn Processing |
| 16 | Water Management |
| 17 | MAR Testing |
| 18 | Water Quality |
| 19 | Environment |
| 20 | Community Involvement |
| 21 | Economic Impact & Opportunity |
| 22 | Mine Closure |
| 23 | Get Involved |

The complete set of posters are available on the Terramin website.

The community has other opportunities to represent their views to Terramin, by sending a comment via the;

- 24hour telephone line

- Website enquiry
- Online survey, promoted via the community newsletter

and attending or participating in the

- CSIRO pulse survey
- WCCC meetings
