

APPENDIX S4

ADELAIDE HILLS RECYCLING (AHR) AGREEMENT

ANGAS PROCESSING FACILITY

MISCELLANEOUS PURPOSES LICENSE APPLICATION

2019/0826

ABN | 67 062 576 238

Unit 7 / 202-208 Glen Osmond Road | Fullarton SA 5063

10 November 2015

Dear Matt,

As per the Terramin Australia Limited letter received on the 29th of October 2015 requesting a number of items, Adelaide Hills Recycling (AHR) is pleased to commit to the following on the condition that Terramin continue to supply water for dust suppression:

- AHR agree to supply TZN with 27,505m³ clean fill (sandy clay soil) material currently located onsite at AHR, and subject to AHR waste cell construction and subsequent soil availability, any further material as is required for the completed rehabilitation works for the AZM Mine Closure Plan for ML6229;
- AHR agree to supply TZN with 20,000m³ of vegetation mulch and place this material as per an agreed design in the TZN eastern paddock;
- AHR, its employees and agents of AHR agree to comply with all TZN occupational health and safety standards that apply whilst onsite at TZN property.

Kind Regards

Fernando D'Apollonio – Managing Director
Adelaide Hills Recycling Pty Ltd
